**WHEREAS**, a Petition dated March 15, 2018, requesting that a water district extension to serve the proposed Deer Pond Estates Subdivision (the “Subdivision”), as hereinafter described, be established in the Town, has been duly presented to the East Greenbush Town Board (the “Town Board”) in accordance with New York Law Article 12; and

**WHEREAS**, the Report has been filed in the Town Clerk’s office and is available for public inspection; and

**WHEREAS**, the Report delineates the boundaries of the proposed water district extension, a general plan of the proposed system, report of the proposed method of operation, and estimated costs to a typical property within the extension; and

**WHEREAS**, the Town Comptroller has confirmed that this resolution will have no material impact on Town finances;

**NOW, THEREFORE, IT IS HEREBY ORDERED:**

1. The boundaries of the proposed water district extension are set forth in the Report and attached hereto. The proposed improvements consist of installation of a new water main consisting of 8,472± linear feet of 10 inch HDPE pipe, all gate valves, appurtenances, and hydrants along with construction of an associated water tank and booster station all to be connected to the existing 8 inch main along Elliot Road to serve up to sixty (60) dwellings to be constructed in the Deer Pond Estates subdivision,

2. All costs associated with the construction and installation of the new water district extension facilities, including materials, excavation and labor costs, will be paid by the Subdivision developer at no cost to the Town of East Greenbush.

3. Capital cost to construct extension infrastructure shall be borne solely by the developer with no cost to the Town. The estimated annual cost of the District to the typical property in the district extension (typical property is a three or four bedroom single family home) for operation and maintenance and other charges would be approximately \$.85 per foot of lot frontage. Water use cost (using 2018 rates) would be \$180 per home.

4. The developer of the Subdivision will pay all costs of the improvements, so there will be no financing required by the Town in connection with the district extension.
