

A. Smith thanked the Town Board for making the resources of the Town Park and the trails available to the residents. She explained that she is part of a group of about 15 trail users that meet daily. She wanted to address the condition of the trails and Lyme disease in the park. She went on to give recommendations on how to get rid of the ticks and explained the erosion of the trails. She recognized that the Park workers do a lot in the Park, but wanted some attention more on the trails.

The Supervisor told her to call Danny or Scott and go over the route with them.

W. Bodie stated that he would like to reiterate his request to address the speed limit and traffic on Phillips Road. He explained how he has observed construction vehicles passing cars and busses on the road. He would like the speed limit lowered and well placed on the Road. Supervisor Conway had some discussion with him regarding his concerns.

A resident asked if the Town can pave or mow the circle coming into Garfield Place. Dan Fiacco will look into this.

D. Robideau discussed the Dog Park and some improvements that he believes should be made. HE explained that it needs maintenance. There are a lot of holes and would like a backhoe full of dirt for holes to be filled. He would like the water fountain to be boxed in and filled with gravel.

A resident stated that she is proud of improvements in the Town Building. She stated that she hopes the Town has a plan for monitoring the traffic from Regeneron. She also asked if the Town knew when there would be a decision on the Pipeline. The Supervisor explained that he did not have an answer.

B. Mathews explained that he is upset with the runoff from Olcott Lane. He went on to explain the damage this has caused. The supervisor had a discussion with him that there is an order to remedy the situation. The next step is a stop order. There was further discussion on this matter.
